

**Application of High Cube Surcharge - Central Pacific Service,
Fiji to Wallis & Futuna, Tuvalu, Kiribati & Marshall Islands**

04th January 2018

Dear Valued Customers,

Increased requirement for High Cube containers has a direct impact on the availability of space on our Central Pacific service. This service is already restricted by the limitations imposed on vessels operating in this area. Such restrictions include limitations relating to vessel draft, length and deadweight.

Special equipment such as High Cubes, are also in shorter supply than standard equipment & more expensive to integrate and operate within the container fleet.

In line with the High Cube surcharges applicable from New Zealand and Australia to these destinations, we will be re-introducing & applying the High Cube surcharge on cargo loading in Fiji to these destinations from the Southern Pearl V155, scheduled to be calling Lautoka & Suva in the second week of February.

Shipments from Fiji to Wallis & Futuna will attract a High Cube surcharge of FJD\$ 450 / 900 per 20 / 40' container. No 40' equipment is accepted into Futuna.

Shipments from Fiji to Funafuti, Tarawa & Kiritimati will attract a High Cube surcharge of AUD\$ 300 / 600 per 20 /40' container. No 40' equipment is accepted into Funafuti & Kiritimati.

Thank you for your continued support.

Yours sincerely,
Pacific Direct Line
