

Bunker Adjustment Factor (BAF) review
NZ to Cook Islands

10th October 2019

Dear Valued Customers,

We pleased to advise all customers of an adjustment to our previous BAF review on the New Zealand to Cook Islands service advised on the 26th September 2019.

The change reflects the decline in the spot price of Low Sulphur Heavy Fuel Oil.

Our previous noticed notified of an increase in Baf to 28.30% on this trade, with the information advised by the fuel suppliers and a decrease in fuel prices, this now supports a 2.0 point decrease in Baf to a revised Baf level of +26.30%

The new BAF will come into immediate effect from the Olomana 114 loading Auckland on the 23rd October.

Thank you for your continued support.

Yours sincerely,
Pacific Direct Line
