

Capitaine Wallis V 003N – Calling Norfolk Island

08th November 2018

Dear Valued Customers,

Due to the significant requirement to supply urgent & outstanding cargo volumes to Norfolk Island customers by early December, we are pleased to confirm that the Capitaine Wallis V003N will be calling Norfolk Island on the 10th of December.

With this larger vessel, cargo will be packed & loaded in containers in Australian & New Zealand ports, then be unpacked on the vessel and discharged into lighters using suitable hiab type cranes as per standard practice on island.

We have been discussing with the Norfolk Island Stevedores & Lighterage organisations who have been receptive to this idea. A representative will be visiting the ship later this month in New Zealand for inspection and sign off on the operational procedures relating to the cargo handling & we will be working very closely with them to achieve a successful load and discharge operation. It will also mean that vehicles & all other cargo that is shipped on deck, would be stowed in a container & so protected from the elements during transit.

As a result, not only will the Capitaine Wallis V003N be able to accommodate overflow cargo that is not able to be catered for by the Southern Tiare V003, we are also pleased to open bookings from Australia & New Zealand for the below dates to be delivered on the Capitaine Wallis V003N :

Sydney – ANL Elaroo V1831 Eta 21st November
Brisbane – ANL Wendouree V111 Eta 27th November
Auckland – eta 06th December
Norfolk Island – eta 10th December

Thank you for your continued support & we remain at your service for any further enquiries.

Yours sincerely,
Pacific Direct Line
