

Rate restoration
Asia to South Pacific Trade

13th February 2018

Dear Valued Customers,

Pacific Direct Line offer a premium service between China, North East Asia, South East Asia, South Asia to the South Pacific Islands.

The port coverage using the PIL network is the most extensive in the market and the traditional weekly frequency on the 'NZS' and 'NCS' service via New Zealand has been recently complemented by the fortnightly 'SPS' product through South China to New Caledonia, Fiji and onward to other Pacific Island destinations.

Over the past few years, freight rates on the Asia to Pacific Islands trade have gradually been eroded to the current unsustainable levels.

In order for us to maintain this service on its current frequency it is necessary to apply a rate increase of US\$ 100 per teu.

The rate restoration will come into effect from the 01/05/18 and therefore be applicable on all cargo loading at the origin port in Asia from this date.

Thank you for your continued support.

Yours sincerely,
Pacific Direct Line
