

Southern Moana V 334 – schedule update

09th May 2019

Dear Valued Customers,

Further to our notice on the 26th April regarding repair work required to Southern Moana crane #2, due to further delays to the work programme we will be completely removing the damaged crane jib from the vessel today so that it can be left behind & repairs completed whilst we continue the voyage V334.

With only the #1 crane operational, we will employ shore cranes to assist with the cargo operations through the ports of call & the #2 crane jib will be refitted when the vessel returns to Auckland after completion of the current voyage.
