

Southern Pearl renaming

06th June 2018

Dear Valued Customers,

We are pleased to announce that progress on our new ship which will service the Central Pacific, currently being built in China, has her scheduled for delivery late August.

This new vessel, which will be named 'Southern Pearl' will allow us to provide increased capacity and frequency on the trade. She has been designed specifically for this service, with a shallow draft, 614 teu capacity, additional cargo fuel tanks & 2x45T cranes which can be combined for heavy lifts.

The new build will replace the current smaller Southern Pearl on this trade & due to the flag state requirements, which does not allow for 2 vessels to share the same name, we are obliged to change the name of the current Southern Pearl back to her original name, in anticipation of the delivery of the new vessel.

As such, from the completion of her voyage 162, the current Southern Pearl will be renamed 'Capitaine Wallis' before commencing her V163 & this change of vessel name will be reflected in this week's schedule.

Thank you for your continued support.

Yours sincerely,
Pacific Direct Line
