Upgraded Auspac Tonnage – Vessel Connections for Apia, Pago, Nuku’alofa

Dear Customers,

Pacific Direct Line is pleased to announce the addition of sister vessels Forum Samoa 4 and Melanesian Pride to the Auspac service.

Each vessel has capacity of 660 TEU/10,600 Deadweight Tons, 150 Reefer plugs, 3 x 45 TON cranes, Project B/Bulk capable and a general service speed of 14 knots.

During the phase in period of the upgraded tonnage, we have arranged for the Kiribati Chief v 1806N to uplift your cargo under slot arrangement.

As Kiribati Chief v 1806N will omit Pago Pago and Nuku’alofa, we have agreed to adjust the Southern Lily v 423 rotation.

Southern Lily will now connect with the Kiribati Chief in Apia, to uplift all cargo destined for Pago Pago and Nuku’alofa.

All Australian customers can now book cargo destined for Pago Pago and Nuku’alofa on the Kiribati Chief v 1806N / connecting to Southern Lily v423.

Please note adjusted schedule below.

For Customers with Southbound cargo ex Apia, Pago and Nuku'alofa destined for Australian ports, PDL will arrange for uplift of your cargo on Southern Lily for trans-shipment in Auckland to first Available vessel.

Our Australian agent - Pacific Asia Express will be able to assist you with connecting vessel details ex Auckland to Australian ports.

If you have any questions regarding the above, please do not hesitate to contact your local PDL, Transam or PAE office for assistance.

Thank you for your continued support

Yours sincerely,
Pacific Direct Line
