

Weather delays to BBC Nordland V101

27th July 2017

Dear Valued Customers,

Due to poor weather conditions in the region & lack of port facilities to assist the vessel with berthing manoeuvres in strong winds, the BBC Nordland V101 has been delayed by 4 days in Wallis & Futuna.

She has completed her cargo operations in Wallis and is currently anchored off the port of Futuna & will make another attempt to berth on Friday early morning, when the conditions are generally more favourable.

Based on her berthing Futuna and completing cargo tomorrow, the revised schedule will be as below. We will keep you informed of any changes.
