Capitaine Wallis & Southern Pearl – Annual surveys

Dear Valued Customers & Partners,

We are aware that supply chains are often planned with significant lead time, in order to plan your forward bookings please note that our Fiji based vessels, Capitaine Wallis & Southern Pearl require annual surveys to be completed by end Q3. Whilst normal practice is to facilitate compliance within the vessels' scheduled rotations given the COVID-19 limitations upon travel we will bring these vessels to New Zealand for annual surveys during this period.

As a consequence of the above there will be changes to vessels deployed in the following services throughout Q3:

- Inter-Island North
- Inter-Island South
- Nouvapac

These changes have been planned to minimise the impact on cargo flows, however for supply chain planning purposes please note that there will be a gap of 25 days in service frequency from Fiji to Wallis & Futuna, from early August until early September. Please plan your cargo flows with this gap in mind.

Should you have any questions or queries please contact your local NPD L representative.

We would also like to take this opportunity to thank you for your ongoing support.

Yours sincerely,

NPD L
