To Whom it may concern.

We hereby confirm that Unit Export Limited contracted Pacific Direct Line in 2013 to complete several shipments from Australia, New Zealand and Fiji to the islands of Tuvalu.

All goods were shipped to Funafuti, Tuvalu in containers using PDL's liner service where they were consolidated before distribution to the outer islands of Tuvalu.

A dedicated vessel was then identified and chartered by PDL to distribute and deliver the equipment from Funafuti to each of the seven outer islands; Nanumea, Nanumaga, Niutao, Nui, Vaitupu, Nukufetau and Nukulalae. This vessel was equipped with a small pontoon barge onto which the equipment was transferred in order to negotiate the narrow reef access channels and offload the goods onto the shore of each island.

All shipments were handled professionally with regular feedback and considering the difficult nature of the inter-island deliveries, there were no delays, complications or issues with the delivery of the equipment.

We chose PDL because of their experience and local knowledge of shipping in the South Pacific and would have no hesitation in recommending their services to anyone considering shipping goods in this part of the world.

Yours Faithfully
